Request for Continuance (Sky Harbour DR-044-25)

Dear Hillsboro Planning Commission,

Over the past week, members of the community have submitted written comments to the Planning Commission regarding Sky Harbour's updated proposal that was released to the public on Wednesday, May 20th. These latest comments discuss the approval criteria, and include a letter from Tualatin Mayor Bubenik and Tualatin City Council President Pratt. We were told that these comments would be posted and made available to the Commissioners the day before the hearing, but that did not happen:

"Thank you for your testimony. Your testimony will be provided to the Planning Commission as part of the May 26th supplemental staff report." (Ruth Klein, May 21, 2026)

"if testimony continues to come in, staff will create a supplemental staff report which is posted and routed to the Commissioners." (Brianna Ross, May 13, 2026)

As of 10:00am today, the day of the hearing, the updated staff report is still not available. The hearing is just hours away, and we believe that the Commissioners still have not received any of the public comments submitted after May 15th.

In order to have a fair hearing, the Commissioners would need adequate time to read and consider the public comments that were sent in response to the applicant's new evidence which was made public one week ago, on May 20th.

Therefore, I am requesting a continuance, so that tonight's hearing may be continued to a date in the future. Thank you for your attention to this matter.

Sincerely,

Brett Hamilton
