

Cooper Mountain Community Plan

The City of Beaverton is planning a 1,200-acre expansion area on Cooper Mountain that will eventually be home to about 5,000 homes, more than 10,000 residents, parks, commercial areas, trees, and natural resources. The Sky Harbour Hangars decision in Hillsboro will directly impact the future residents and businesses in this area. Below is the planned zoning map overlaid with the HIO jet approach flight path.
